

# Bee Fit 4 Kids

[www.BeeFit4Kids.com](http://www.BeeFit4Kids.com)

A multi-disciplinary family oriented pediatric weight management program that will improve eating and exercise habits for children. This community based program teaches children and their parents how to modify their lifestyle to include healthier food options and fun physical activities.

All participants will find a supportive environment that will encourage them to reach their own individual goals and achieve their personal best.

We are staffed with Registered Dietitians, a Clinical Psychologist, a Licensed Clinical Social Worker, and the finest Board Certified Pediatric Gastroenterologists and Physician Extenders.
